

FOCUS ON FCTCLANT INITIATIVES

E-mail: FCTCLANT.N7B@SMTP.CNET.NAVY.MIL

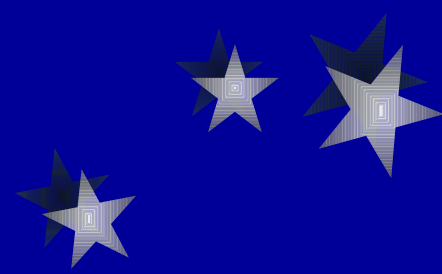

AIM

FCTCLANT AIM

Implementation

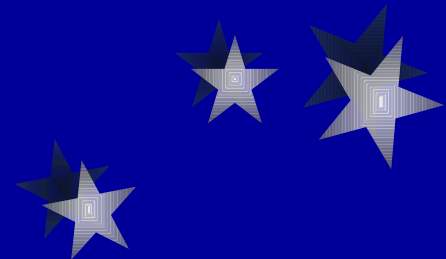

Overview

	Total courses	104
	CCMM	85
	AIM I	44%
	AIM II	56%

Return on Investment (ROI)

- **Invest SME time now save later on:**
 - Development time
 - Revision
- **Plus you begin reaping the benefits now**

VTT Initiatives

VTT Utilization / Return on Investment (ROI)

- **Training and Conferencing Utilization**

- 67%

- **ROI**

- Training (FY98) \$2,560,396.00

- Conferencing (FY98) \$3,679,095.00

(Total ROI since FY89 \$18,327,529.00)

- **CISO's School to School House (i.e. Curriculum) Utilization**

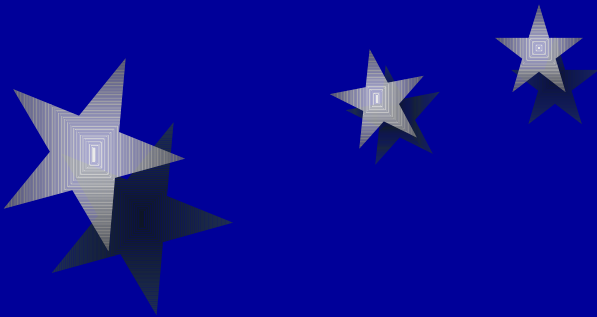

- 0% (Based on statistics reported to HUB Dam Neck)

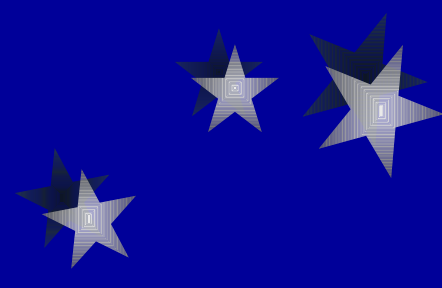

Advanced Distributed Learning Initiatives

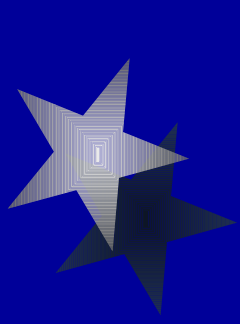

- **FCTCLANT supports:**
 - Naval Training Data Warehouse/Repository/Delivery System (TDWRDS)
 - Army's Advanced Distributed Learning Initiative
 - Joint Efforts by all Services

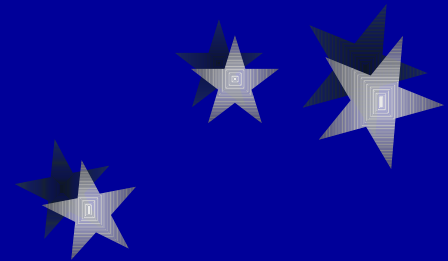

Training Data Warehouse/Repository/ Delivery System (TDWRDS) Initiatives

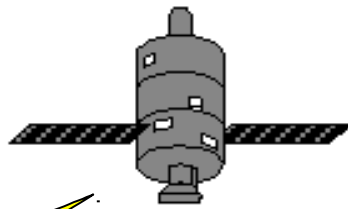

TDWRDS Objective

To develop, demonstrate and implement an integrated approach to *just enough, just in time* and *just where it's needed* training for the 21st century.

**GBS or other
Satellite Network
(Challenge Athena)**

Satellite

TDWRDS

**Smaller ships via
Digital Satellite Dish**

**Via Digital Satellite
Dish and/or
Wireless LAN**

Satellite uplink/downlink

**Land
Lines**

Internet

**Dedicated Land
Lines**

Switch/Gateway

Dedicated Land Lines

**High Performance
Corporate Digital Multimedia
Server (e.g. CNET/NETPDTC
work-based Training Server with
the configuration baseline)**

Schools

**Reserve
Center**

**Individual
Homes**

**Carrier Battle
Group**

Internet

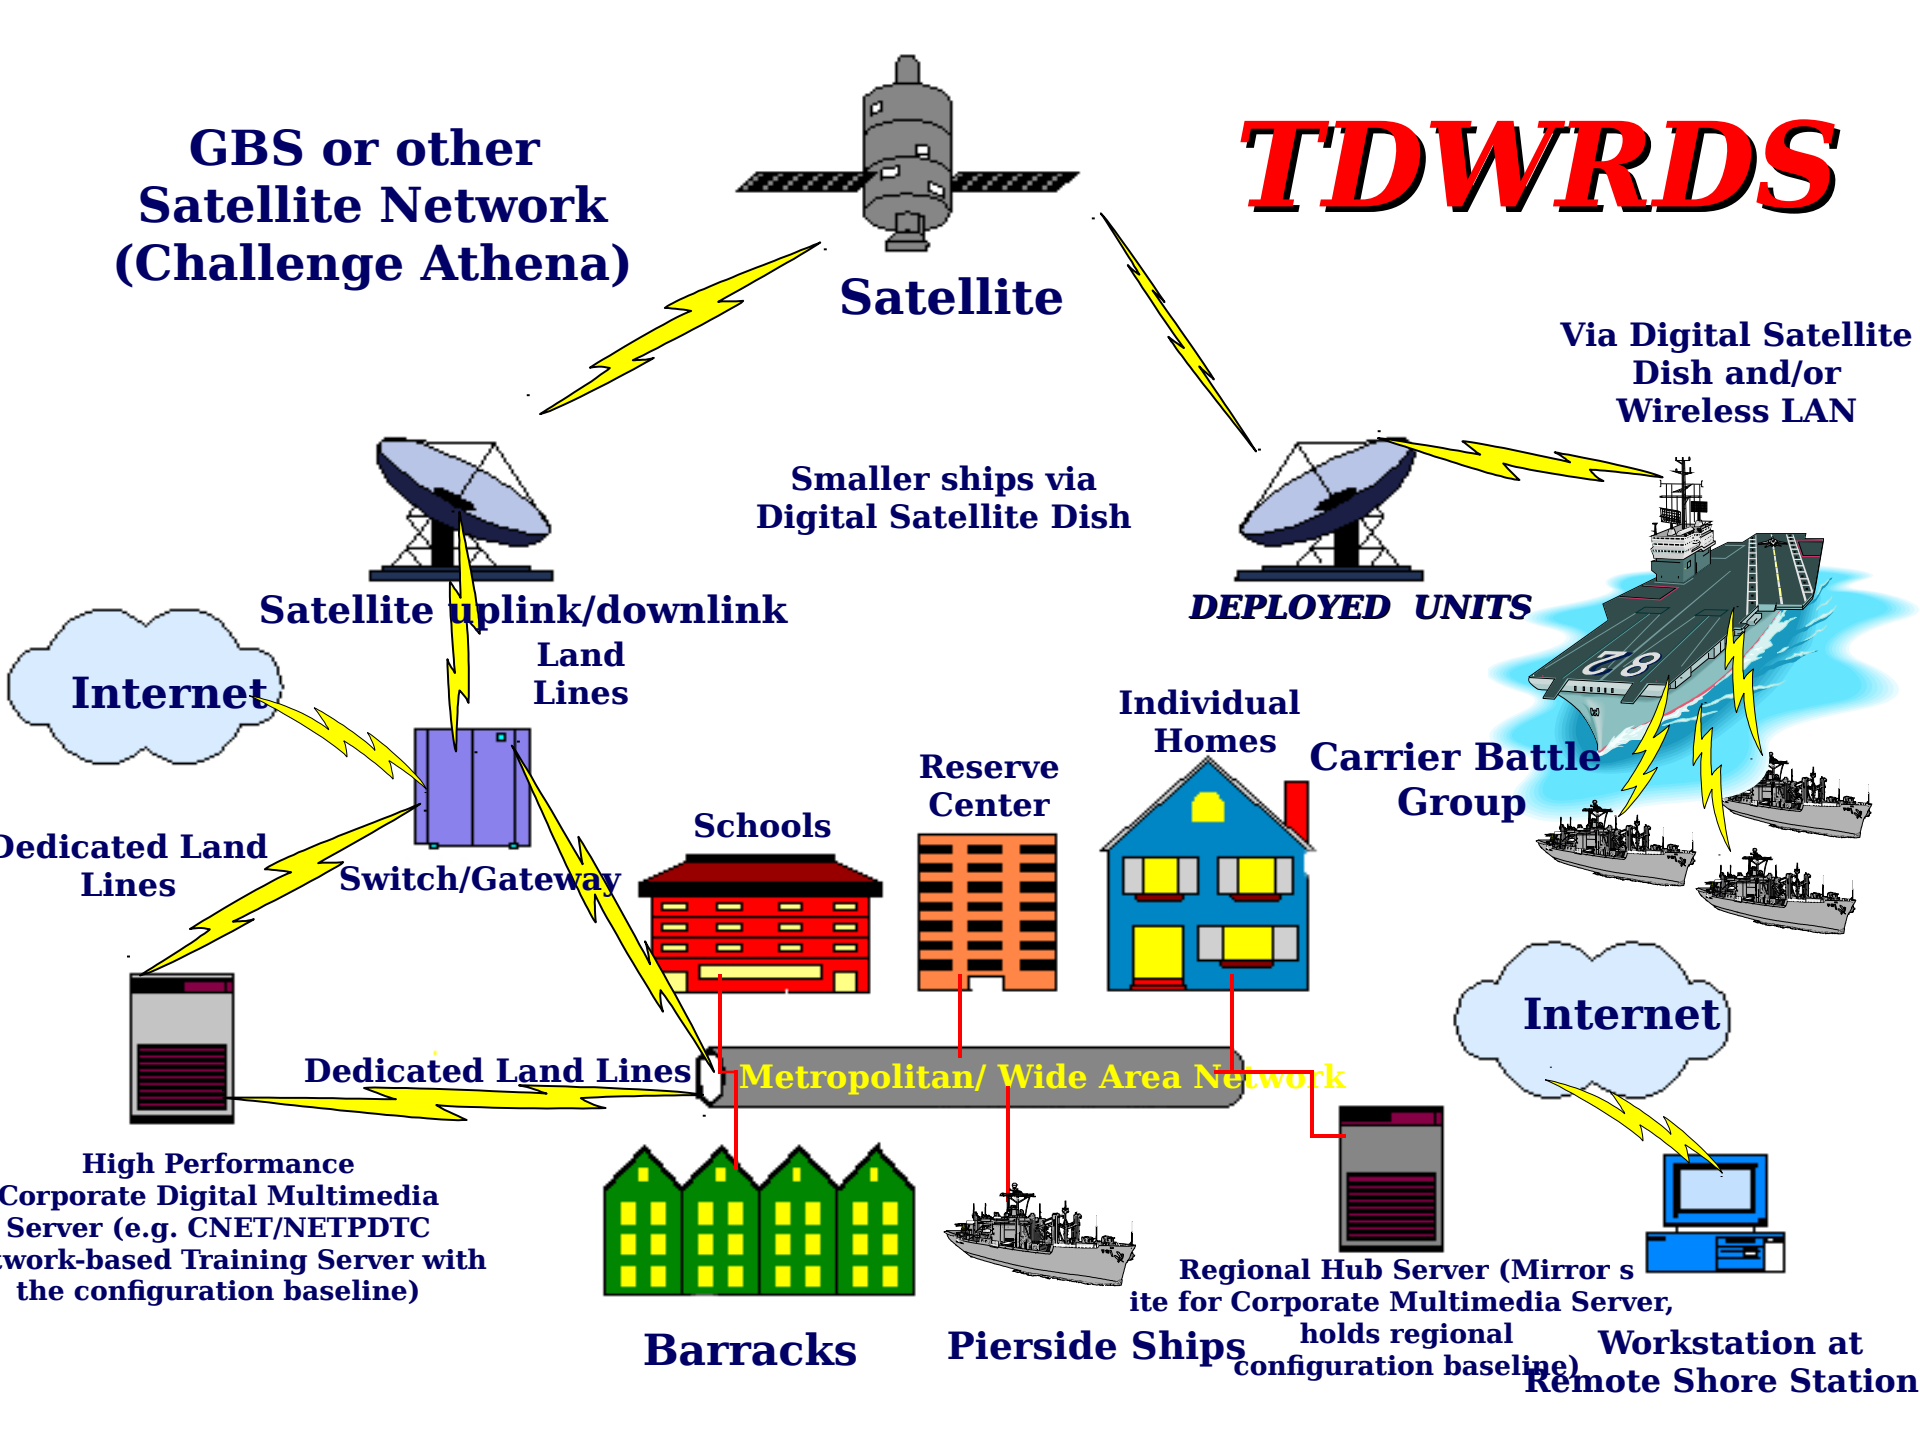

Barracks

Pierside Ships

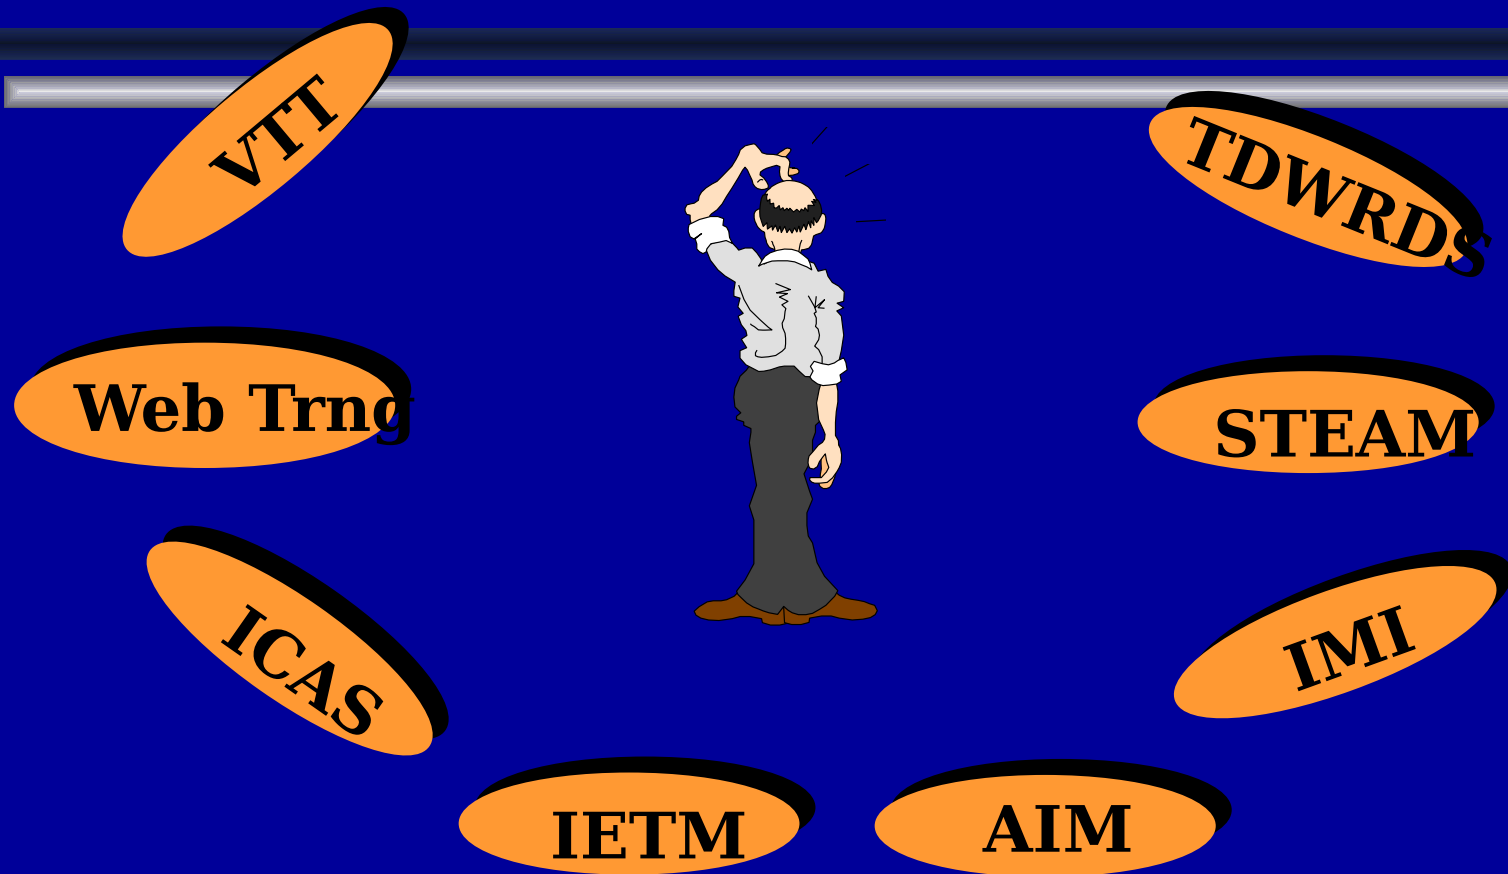

**Regional Hub Server (Mirror s
ite for Corporate Multimedia Server,
holds regional
configuration baseline)**

**Workstation at
Remote Shore Station**

Metropolitan/ Wide Area Network

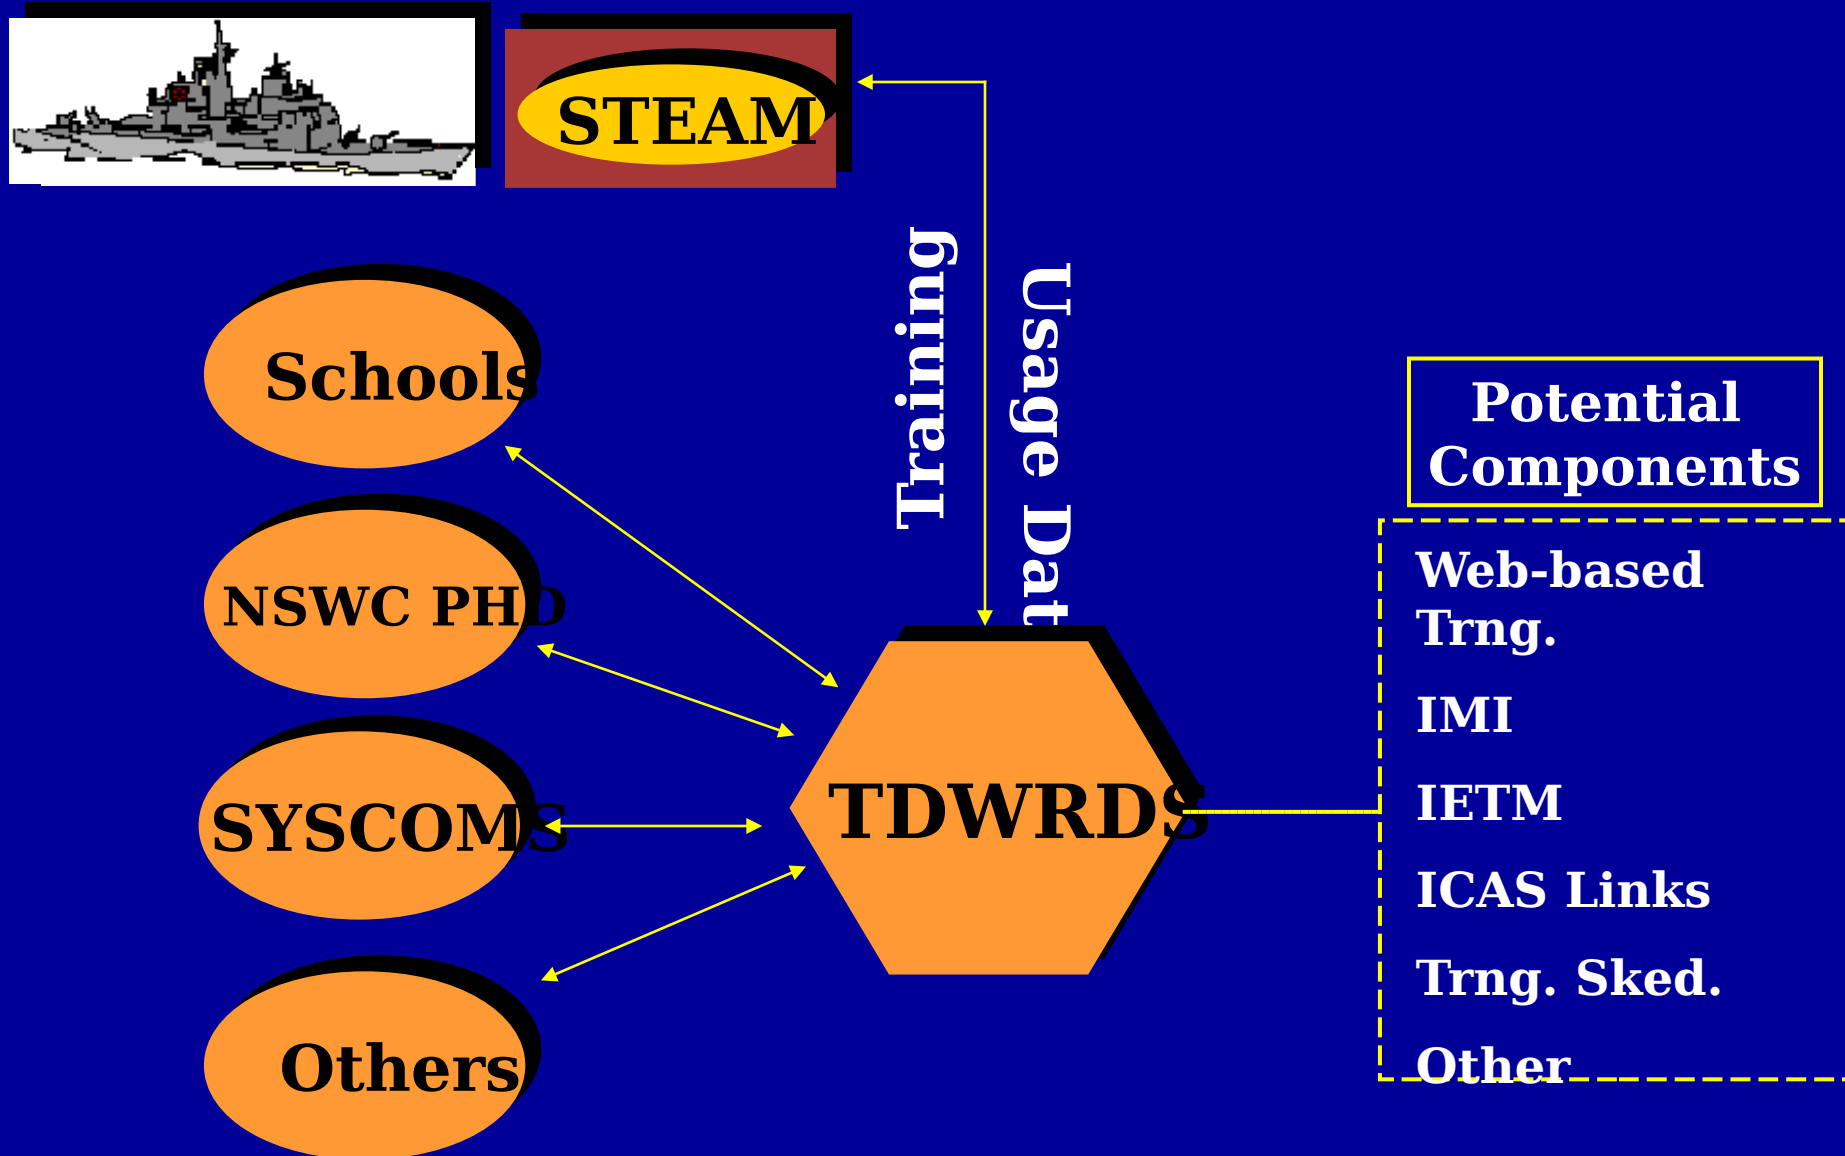

Many Good Initiatives

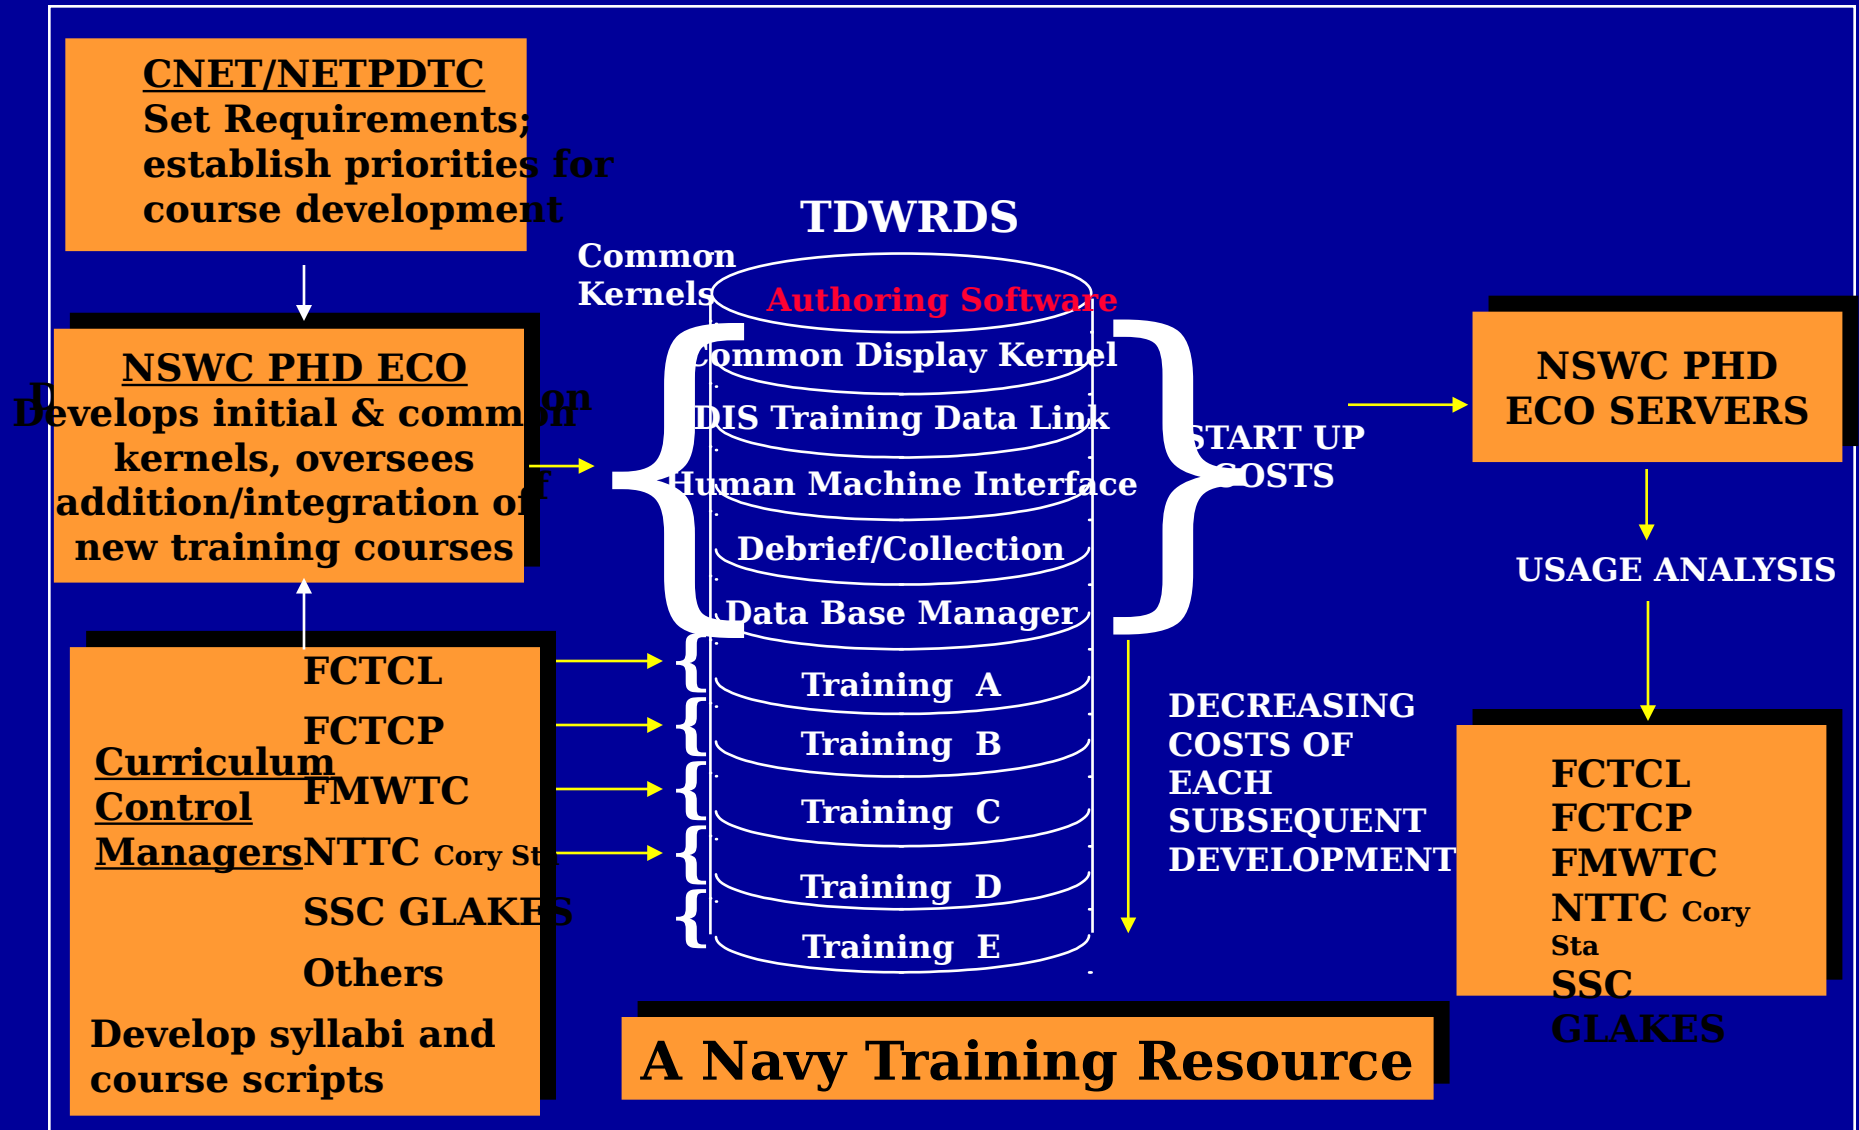

How Do We Integrate In Support of Operationa

Simplified Integrated Model (TDWRDS)

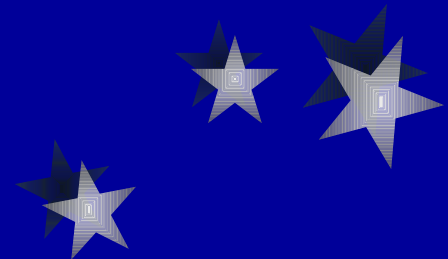

THE "BASIC IDEA"

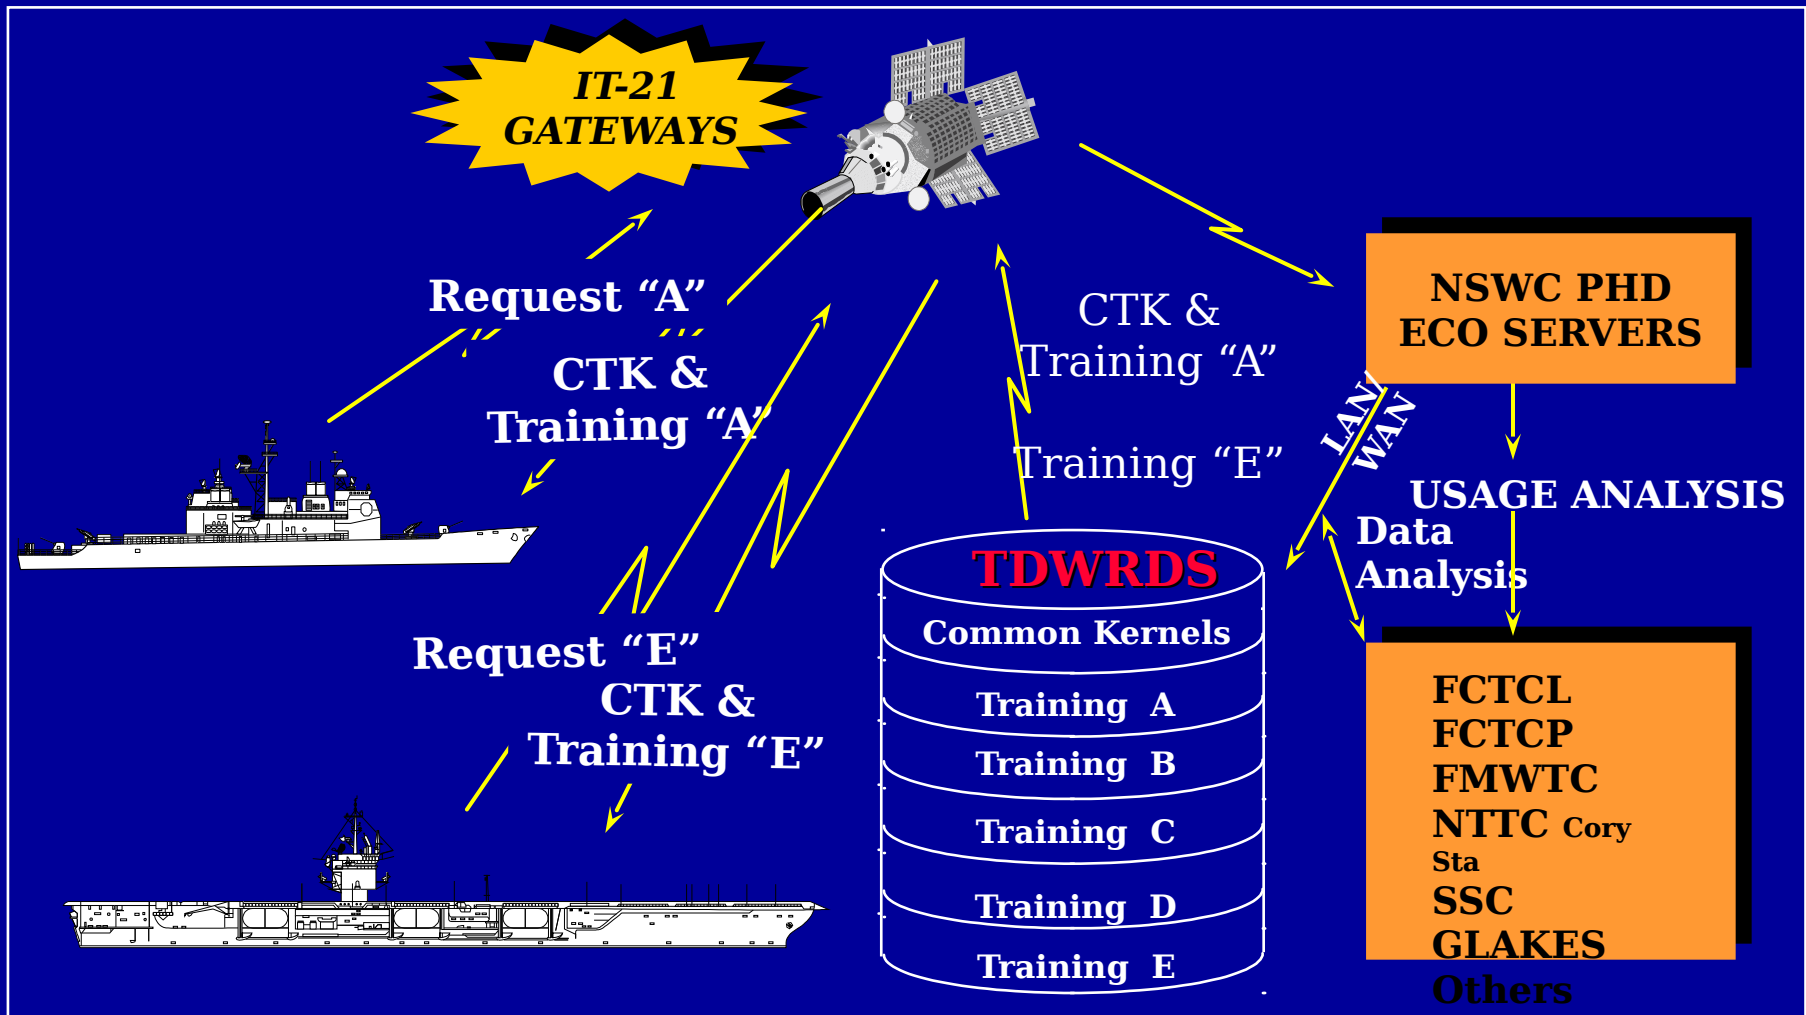

General Concept

- Have a Main Repository of all training materials
- Have several “Local Repository” sites (Ashore & Afloat)
- If training materials not in local repository then it would access and download needed items from Main

FLEET USE (INITIAL)

Why Dam Neck?

- Technology base in place
 - CESN hub and expertise
 - ITDN in place
 - NMITC & NETPDTC training technology facilities
